RESEARCH INTERESTS

Cyber Threat Intelligence (CTI) · Digital Forensics · Cybercrime-as-a-Service · Darknet & OSINT-based threat actor analysis

EDUCATION

Prague University of Economics and Business (VŠE)

Prague, Czech Republic

M.S. in Information Management — expected Feb 2027

Class Rank: 6th / 47 (top 12.77% of cohort, university-computed) · Average: 1.3/4.0 Czech scale (≈4.16/4.5 Korean-scaled)

Thesis: Analysis of Cybercrime-as-a-Service Models — applied OSINT and network analysis to map threat actor behaviors.

- Relevant coursework (grade / percentage): Digital Forensic Analysis (98%), Information Systems Security Management (99%), Penetration Testing of IS Security (91.5%), Introduction to Cybersecurity (91.5%), Social Informatics (91%)

Konkuk University — Exchange Semester

Seoul, South Korea

GPA: 4.13/4.5 (96.3% average)

- Coursework: Media Research Methods (A+), Perceptions and Realities of Developing Countries (A+), Understanding Korean Culture (A+), Korean Intermediate (B+), Korean History and Culture Shown in Films and K-Dramas (B+)

Korea University — International Summer Campus

Seoul, South Korea

Summer 2026 · GPA: 4.25/4.5

- Coursework: Intermediate Korean (A+), Introduction to Hanja: Chinese Characters in Korean (A)

Masaryk University Brno

Brno, Czech Republic

B.S. in Ecological and Evolutionary Biology — Sep 2017 – Feb 2020

RELEVANT PROFESSIONAL EXPERIENCE

Security Delivery Senior Analyst — Accenture

Prague · Sep 2020 – Present

- Lead security delivery across infrastructure upgrade projects, translating technical vulnerability and risk findings into actionable intelligence for cross-functional and executive stakeholders
- Manage the full project lifecycle for security infrastructure initiatives, from requirements analysis through technical deployment
- Bridge technical security engineering and risk governance, producing structured reporting used directly in organizational decision-making

Quality Assurance Engineer — Figure

Brno · Jan 2018 – Aug 2020

- Managed infrastructure reliability and release quality using AWS, Jira, and CI/CD pipelines
- Standardized testing and training protocols; mentored team members in high-availability, high-stakes environments

TECHNICAL SKILLS

Forensics & CTI:

Digital Forensics, Incident Response, Cyber Threat Intelligence (CTI), OSINT, Darknet Analysis, Vulnerability Assessment

Programming:

Python (automation, data analysis), C#

Systems & Infrastructure:

Linux, AWS, Cloud, Git

Frameworks:

Security Risk Management, Agile/Scrum

LANGUAGES

English (fluent) · Czech (native) · Korean (TOPIK Level 2, in progress toward Level 3+)

PROFESSIONAL ENGAGEMENT & CERTIFICATIONS

- Udacity Nanodegrees: AI Programming with Python; AWS Machine Learning Engineer
- Active member, DEF CON (Online) and OWASP Czech Chapter — focus on emerging threat vectors and defensive strategies
